RESEARCH ASSISTANT

Milena Almagro, a prospective faculty member in Chicago Booth's Microeconomics group is seeking to hire students for part-time research assistance. The work would relate to research described at www.milena-almagro.com. The position is projected to require 5-10 hours per week through the end of the calendar year.

Potential hires should be fluent in Dutch, as they will be expected to work with data from the Netherlands, and proficient in Stata. Examples of such data that are publicly available can be found at <https://data.amsterdam.nl/>. Candidates will be expected to work with restricted access census microdata from the Netherlands (<https://www.cbs.nl/>) at later stages of the project. Notions of the institutional setting in the Netherlands (housing, education, immigration, etc.) and/or of any programming language such as Julia or Matlab will be positively valued, but are by no means necessary. Candidates who can legally work in the US will have priority.

Ideally, candidates should be interested in urban economics, spatial economics, trade/economic geography, public policy, or empirical industrial organization. If interested, please email your CV and a short note describing your research interests to milena.almagro@chicagobooth.edu.

The University of Chicago provides equal employment opportunities to all employees, applicants, and job seekers. No person shall be discriminated against in employment or harassed because of race, color, religion, sex, sexual orientation, gender identity, national or ethnic origin, age, disability, veteran status, genetic information, marital status, parental status, ancestry, source of income, or other classes protected by law. This policy includes the commitment to maintaining a work environment free from unlawful harassment.
